Respect.   Responsibility.   Reaching for Excellence.

Ottawa Jewish
Community School

Options for Tuition Rates for 2019/20
Please select one from the following options, sign and return to the school.

Family Name _____   **Student(s) Name(s)** _____

❒ Option #1: **OJCS Tuition** (does not require a family to disclose Income).

Rates are as follows:
First Child $16,565   Second Child $15,815   Third Child $15,330   Fourth + Child $15,000

❒ Option #2: **OJCS Tuition Grid - Subsidized Tuition**.

Subsidized tuition rates are available and are based on two (2) variables: Gross family income and number of students enrolling in the school. These rates are detailed on the enclosed *2019 -2020 Tuition Fees* document. Families must disclose their gross family income to access the subsidized rates. Gross Family Income is defined as line 150 of your tax returns. Declared income must be verified by our CFO or your accountant **every year.**

Please choose from the following methods to verify your gross family income:

❒ Financial self-declaration certified by your accountant, or

❒ Financial declaration directly to school's CFO at no cost (submit copy of tax return including line 150)

The Financial Self Declaration Form is to be returned in a sealed envelope to the school office where it will be delivered to the CFO's office.

❒ Option #3: **Tuition Assistance Program** (requires full financial disclosure)**.**

Please refer to the **"TUITION ASSISTANCE PROGRAM PROCESS for 2019/2020"** (attached to enrollment package) for guidance on how to apply.

****
The tuition rate does not represent the true cost of education per child and the gap is funded through community allocations and fundraising activities by the school. To the extent that you are able to fund the gap between tuition and the true cost to educate your child(ren) and/or help fill the gap for other children, this option has been provided and a charitable receipt will be issued for the full amount selected.

❒ Additional Donation: True Cost of Education (average of $3,000/student).

Number of students _____ x $3,000 = $_____
